

Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC

## 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

- 1.1 Product identifier:** ZeroSmell Tab
- 1.2 Relevant identified uses of the substance or mixture and uses advised against:** Product for perfumery
- 1.3. Details of the supplier:** Veltek Systems, S.L.  
Pare Rodés, 26 , 3ª planta, Torre A, 1º 7ª  
08208 Sabadell - Barcelona - Spain
- 1.4. Emergency telephone number:** Instituto Nacional de Toxicología 915 620 420

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification:

#### Directive 67/548/EC and Directive 1999/45/EC:

This product was classified in accordance with Directive 67/548/EC and Directive 1999/45/EC, adapting the requirements to Regulation (EC) n°1907/2006 (REACH regulation).

Xi - Irritant

R52/53 - Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

#### CLP Regulation (EC) n° 1272/2008:

Classification of this product has been carried out in accordance with CLP Regulation (EC) n° 1272/2008.  
Aquatic Chronic 3: Hazardous to the aquatic environment, long-term hazard, Category 3

### 2.2 Label elements:

#### Directive 67/548/EC and Directive 1999/45/EC:

##### R Phrases:

R36: Irritant for the eyes

R43: May cause sensitization by skin contact.

R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

##### S Phrases:

S35: This material and its container must be disposed of in a safe way

S46: If swallowed, seek medical advice immediately and show this container or label

##### Supplementary information:

P99: Contains sensitizing substances. May cause an allergic reaction.

#### CLP Regulation (EC) n° 1272/2008:

##### Hazard indications:

Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects.

##### Cautionary advice:

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P103: Read label before use.

P273: Avoid release to the environment.

P302+p352: In case of contact with skin: Wash with plenty of soap and water.

P305+p351+p338: In case of eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present.

P333+p313: In case of skin irritation: consult a doctor.

P337+p313: If eye irritation persists: consult a doctor

P501: Dispose of contents/container under current legislation

##### Supplementary information:

EUH208: Contains sensitizing substances. May cause an allergic reaction..

### 2.3 Other hazards:

Non-applicable

Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC

### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

**Chemical description:** Aqueous solution of surfactants

**Components::**

In accordance with Annex II of Regulation (EC) n°1907/2006 (point 3.2), the product contains:

Product	Range	CAS	EINECS	Danger
Octan-1-ol	<1%	111-87-5	203-917-6	Xi, N, R36, R51/53
Lynalil acetate	> 1% < 5%	115-95-7	204-116-4	N 51/53
2-Fenilethanol	> 1% < 5%	60-12-8	200-456-2	Xi R36
3,7-Dimetiloct-6-en-1-ol	< 1%	106-22-9	203-375-0	Xi N R38, 43, 51/53
Decan-1-ol	< 1%	112-30-1	203-956-9	Xi N R38, 36, 51/53
2-Bencilidenheptanal	> 10% < 20%	122-40-7	204-541-5	Xi N R43, 51/53
2-Metoxifenol-4-alil	<1%	97-53-0	202-589-1	Xi R36, 43

To obtain more information on the risk of the substances consult epigraphs 8, 11, 12 and 16.

### **4. FIRST AID MEASURES**

#### **4.1 Description of first aid measures:**

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the MSDS of this product.

**By inhalation:**

This product does not contain substances classified as dangerous for inhalation, however, in case of symptoms of intoxication remove the person affected from the exposure area and provide with fresh air. Seek medical attention if the symptoms get worse or persist.

**By skin contact:**

This product is not classified as dangerous when in contact with the skin. However, in case of skin contact it is recommended to remove contaminated clothes and shoes, rinse the skin or shower the person affected if necessary thoroughly with cold water and neutral soap. In case of serious reaction consult a doctor.

**By eye contact:**

Rinse eyes thoroughly with water for at least 15 minutes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, as this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the MSDS of the product.

**By consumption:**

Do not induce vomiting, but if it does happen keep the head up to avoid inhalation. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

#### **4.2 Most important symptoms and effects, both acute and delayed:**

4.2.1 Symptoms on inhalation: Choking, drowsiness and respiratory disorders

4.2.2 Symptoms on eye contact: irritation, redness

4.2.3 Symptoms of skin contact: irritation, itching, redness

4.2.4 Symptoms on ingestion: nausea and abdominal pain

#### **4.3 Indication of any immediate medical attention and special treatment needed:**

Non-applicable

### **5. FIREFIGHTING MEASURES**

#### **5.1 Extinguishing media:**

In case of inflammation as a result of improper manipulation or storage use preferably polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems. IT IS NOT RECOMMENDED to use tap water as an extinguishing agent.

*Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC*

## 5.2 Special hazards arising from the substance or mixture:

As a result of combustion or thermal decomposition reactive subproducts are created (CO<sub>2</sub>, CO, NO<sub>x</sub>,...) that can become highly toxic and, consequently, can present a serious health risk..

## 5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and individual respiratory equipment. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) in accordance with Directive 89/654/EC.

### Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures:

Isolate leaks provided that there is no additional risk for the people performing this task. Evacuate the area and keep out those without protection. Personal protection equipment must be used against potential contact with the spilled product (See epigraph 8). Above all prevent the formation of any vapor-air inflammable mixtures, through either ventilation or the use of an inertizing agent. Destroy any source of ignition. Eliminate electrostatic charges by interconnecting all the conductive surfaces on which static electricity could form, and also ensuring that all surfaces are connected to the ground.

### 6.2 Environmental precautions:

Avoid at all cost any type of spillage into an aqueous medium. Contain the product absorbed appropriately in hermetically sealed containers. Notify the relevant authority in case of exposure to the general public or the environment.

### 6.3 Methods and material for containment and cleaning up:

Being a solid product, it can be collected with a shovel. For any concern related to disposal consult epigraph 13..

### 6.4 Reference to other sections:

See sections 8 and 13

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling:

A.- Precautions for safe manipulation:

Comply with the current legislation concerning the prevention of industrial risks. Keep containers hermetically sealed. Control spills and residues, destroying them with safe methods (epigraph 6). Avoid leakages from the container. Maintain order and cleanliness where dangerous products are used.

B.- Technical recommendations for the prevention of fires and explosions.

Avoid the evaporation of the product as it contains inflammable substances, which could form inflammable vapor/air mixtures in the presence of sources of ignition. Control sources of ignition (mobile phones, sparks,...) and transfer at slow speeds to avoid the creation of electrostatic charges. Avoid projections and pulverizations. Consult epigraph 10 for conditions and materials that should be avoided.

C.- Technical recommendations to prevent ergonomic and toxicological risks

In order to minimize the risks resulting from lifting the product's container it is recommended to: have legs apart to achieve a stable posture, keep the object as close to the body as possible, lift the weight gradually and without shaking, and do not turn whilst lifting the weight (it is better to pivot on the feet). Transfer in fixed places that are equipped with the necessary security conditions (emergency showers and eyewash stations in close proximity), using personal protection equipment, especially on the face and hands (See epigraph 8). Limit manual transfers to containers of small quantities. Do not eat or drink during the process, washing hands afterward with suitable cleaning products

D.- Technical recommendations to prevent environmental risks

Due to the danger of this product for the environment it is recommended to use it within an area containing contamination control barriers in case of spillage, as well as having absorbent material in close proximity..

### 7.2 Conditions for safe storage, including any incompatibilities:

A.- Technical measures for storage:

Minimum Temp: 0 °C

Maximum Temp: 40 °C

Shelf life: 12 months

B.- General conditions for storage.

Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC

Avoid sources of heat, radiation, static electricity and contact with food.

**7.3 Specific end use(s):**

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1 Control parameters:**

Substances whose occupational exposure limits have to be monitored in the work environment:

There are no environmental limits for the substances contained in the mixture

**8.2 Exposure controls:**

A.- General security and hygiene measures in the work place

As a preventative measure it is recommended to use basic individual protection equipment, with the corresponding "CE marking" in accordance with Directive 89/686/EC. For more information on individual protection equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see epigraph 7.1.

B.- Respiratory protection

It is not necessary to perform specific occupational exposure controls.

C.- Specific protection for the hands

LRP Pictogram	IPE	Labeling	CEN Standard	Remarks
 Mandatory hand protection	Chemical protective gloves		EN 374-1:2003 EN 374-2:2003 EN 374-3:2003 EN 420:2003+A1:2009	Replace the gloves at any sign of deterioration

D.- Ocular and facial protection

LRP Pictogram	IPE	Labeling	CEN Standard	Remarks
 Mandatory face protection	Panoramic glasses against liquid splash		EN 166:2001	Clean daily and disinfect periodically according to the manufacturer's instructions

E.- Bodily protection

LRP Pictogram	IPE	Labeling	CEN Standard	Remarks
	Work clothing		EN 168:2001	For professional use only.
	Anti-slip work shoes		EN ISO 20347:2004/A1:2007	None

F.- Additional emergency measures

Emergency measure	Standards	Emergency measure	Standards
 Emergency shower	ANSI Z358-1 ISO 3864-1:2002	 Eyewash stations	DIN 12 899 ISO 3864-1:2002

**Environmental exposure controls:**

In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the product and its container. For additional information see epigraph 7.1.D

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

### **9.1 Information on basic physical and chemical properties:**

For complete information see the product data sheet.

#### **Appearance::**

Physical state at 20 °C: Solid

Appearance:: Opaque

Color: white

Odor: Characteristic

#### **Volatility::**

Boiling point at atmospheric pressure: Non-applicable \*

Vapor pressure at 20 °C: 2349 Pa

Vapor pressure at 50 °C: 12374 Pa (12 kPa)

Evaporation rate at 20 °C: Non-applicable \*

#### **Product description:**

Density at 20 °C: 1229 kg/m<sup>3</sup>

Relative density at 20 °C: 1,231

Dynamic viscosity at 20 °C: Non-applicable \*

Kinematic viscosity at 20 °C: Non-applicable \*

Concentration: Non-applicable \*

pH: Non-applicable \*

Vapor density at 20 °C: Non-applicable \*

Partition coefficient n-octanol/water 20 °C: Non-applicable \*

Solubility in water at 20 °C: Non-applicable \*

Solubility property: Non-applicable \*

Decomposition temperature: Non-applicable \*

#### **Flammability::**

Flash Point: Not available

Autoignition temperature: > 220° C

Lower flammability limit: Not available

Upper flammability limit: Not available

### **9.2 Other information**

Surface tension at 20 °C: Non-applicable \*

Refraction index: Non-applicable \*

#### **Volatile organic compounds:**

With regard to Directive 1999/13/EC, this product has the following characteristics:

V.O.C. (Supply): 0,36 % weight

V.O.C. density at 20 °C: 4 kg/m<sup>3</sup> (4 g/L)

Average carbon number: 10

Average molecular weight: 142,31 g/mol

With regard to Directive 2004/42/EC, this product which is ready to use has the following characteristics:

V.O.C. density at 20 °C: 5 kg/m<sup>3</sup> (5 g/L)

\*Not relevant due to the nature of the product, not providing information property of its dangerousness.

## **10. STABILITY AND REACTIVITY**

### **10.1 Reactivity:**

No hazardous reactions are expected if the following technical instructions storage of chemicals. See section 7.

### **10.2 Chemical stability:**

Chemically stable under the conditions of storage, handling and use.

Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC

### 10.3 Possibility of hazardous reactions:

Possible reactions with strong oxidizers.

### 10.4 Conditions to avoid:

Shock and friction	Contact with air	Increase in temperature	Sunlight	Humidity
Not applicable	Not applicable	Precaution	Avoid direct exposition	Not applicable

### 10.5 Incompatible materials:

Acids	Water	Combustive materials	Combustible materials	Others
Precaution	Not applicable	Avoid direct exposition	Avoid direct exposition	Not applicable

### 10.6 Hazardous decomposition products:

See epigraph 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

## **11. TOXICOLOGICAL INFORMATION**

### 11.1 Information on toxicological effects:

The experimental information related to the toxicological properties of the mixture itself is not available

#### **Dangerous health implications:**

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

#### A.- Ingestion::

The product is not classified as dangerous for consumption with acute, irreversible or chronic effects, as it does not contain substances classified as dangerous for consumption. For more information see epigraph 3.

#### B- Inhalation::

The product is not classified as dangerous for inhalation with acute, irreversible or chronic effects, as it does not contain substances classified as dangerous for inhalation. For more information see epigraph 3.

#### C- Contact with the skin and the eyes:

The product is not classified as dangerous for skin contact with acute, irreversible or chronic effects, however, it contains substances classified as dangerous for skin contact. For more information see epigraph 3.

#### D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

The product is not classified as dangerous with carcinogenic, mutagenic or toxic for reproduction effects, as it does not contain substances classified as dangerous for the effects mentioned. For more information see epigraph 3.

#### E- Sensitizing effects:

The product is not classified as dangerous with sensitizing effects, however, it contains substances classified as dangerous with sensitizing effects. For more information see epigraph 3.

#### F- Specific target organ toxicity (STOT)-time exposure:

Not applicable

#### G- Specific target organ toxicity (STOT)-repeated exposure:

Not applicable

#### H- Aspiration hazard:

Not applicable

## **12. ECOLOGICAL INFORMATION**

The experimental information related to the ecotoxicological properties of the mixture itself is not available

### 12.1 Toxicity:

Not available

### 12.2 Persistence and biodegradability:

Not available

### 12.3 Bio-accumulative potential:

Not available

### 12.4 Mobility in soil:

Not available

Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC

#### 12.5 Results of PBT and vPvB assessment:

Non-applicable

#### 12.6 Other adverse effects:

Not described

### **13. DISPOSAL CONSIDERATIONS**

#### 13.1 Waste treatment methods:

Code	Description	Waste class
07 06 99	Wastes not otherwise specified	Non dangerous

#### **Regulations related to waste management:**

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1, parts A and B, of Decision 96/350/EC.

#### **Regulations related to waste management:**

In accordance with Annex II of Regulation (EC) n°1907/2006 (REACH) the community or state provisions related to waste management are stated.

- Community legislation: Directive 91/689/EC
- Community legislation: Directive 75/442/EC, modified by Decision 96/350/EC

### **14. TRANSPORT INFORMATION**

This product is not regulated for transport

### **15. REGULATORY INFORMATION**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

#### **Limitations to commercialization and the use of certain dangerous substances and mixtures (Annex XVII, REACH):**

Non-applicable

#### **Specific provisions in terms of protecting people or the environment:**

It is recommended to use the information included in this safety data sheet as data used in a risk evaluation of the local circumstances in order to establish the necessary risk prevention measures for the manipulation, use, storage and disposal of this product.

#### **Other legislation:**

Non-applicable

#### 15.2 Chemical safety assessment:

The supplier has not carried out evaluation of chemical safety.

### **16. OTHER INFORMATION**

#### **Legislation related to safety data sheets:**

This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) N° 1907/2006

#### **Text of R-phrases considered in epigraph 3:**

#### **Directive 67/548/EC and Directive 1999/45/EC:**

R38: Irritating to skin

R43: May cause sensitization by skin contact

R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

R51/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

#### **CLP Regulation (EC) n° 1272/2008:**

Aquatic Acute 1: H400 - Very toxic to aquatic life.

*Material safety data sheet according to 1907/2006/EC (REACH), 453/2010/EC*

Aquatic Chronic 1: H410 - Very toxic to aquatic life with long lasting effects.

Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects.

Flam. Liq. 3: H226 - Flammable liquid and vapor.

Skin Irrit. 2: H315 - Causes skin irritation.

Skin Sens. 1: H317 - May cause an allergic skin reaction.

**Advice related to training:**

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

**Main bibliographical sources:**
