

Horizontal baby changing station, wall-mounted

- Smooth opening and closing.
- High quality hinge mechanism.
- No sticking points.
- Easy to clean.
- Includes towel dispenser or sanitary bags (30 units).
- Meets disabled access codes.
- Also available recessed (VELTIA 09200).

TECHNICAL DETAILS

- Made of AISI 304 stainless steel and high-strength plastic, smooth finish with no sticking points.
- Concave changing surface and adjustable strap.
- Minimum holding capacity 180 Kg. The strength of the supporting wall and hardware must be adequate to support the rated load.
- Dimensions: height 648 mm x width 940 mm x depth 550 mm (open) / depth 103 mm (closed).
- Recommended installation height for compliance with ADA Accessibility Standards: about 82 cm from the finished floor.
- Installation: mount unit to wood wall studs using four (Ø10x51) lag screws provided (or other fasteners appropriate for wall conditions) through mounting holes in rear wall of cabinet. For masonry walls use appropriate anchors (not provided). Use washers and snap covers provided.
