- Included an air filter HEPA H13
- It incorporates a bad odor gel neutralizer, Zerospell
- Turbo motor and Multi-Jet outlet air
- Easy installation

Customizable in 16 different colors and also available in Stainless Steel cover

VFusion Foot Dryer

VFusion Foot Dryer is perfect to be installed in any private or public restroom, mosques and centers of worship, for persons with reduced mobility, for older people, in gyms, centers, swimming pools, etc...

VFusion Foot Dryer is the new revolutionary foot dryer of **Veltia** that guarantees a fast drying process lasting only **8-10 seconds** with their high speed motor **TURBO** mode.

Unique on the market, it works with an automatic laser sensor that detects the foot and **provides an effective drying between the toes and silence drying** thanks to their Patented Acoustic Dampening System (ADS).

It is 100% customizable and available in 16 different colors of interchangeable front covers.

PATENTED AIR OUTLET (ADS)

Multi-Jet, is the air outlet that with its multiple holes, allows the air spread getting a feeling of a massage in the foot emitting a sound low in decibels (only 68dB).

EXCEPTIONAL HYGIENE

VFusion Foot Dryer includes an air filter; "**Hepa Filter H13**", that **retains the 99.97% of the particles in the air**.

In addition to this filter, it includes a bad odour neutralizer system:

Veltia Zerosemell®, that not only eliminates the bad odour but also improves the air quality leaving a pleasant fragrance.

These two accessories make the **VFusion Foot Dryer one of the most hygienic dryers on the market**.

It is recommended to replace both accessories every 90 days.

MATERIALS

Back plate, Rear housing, Motor front cover, Front housing, both Multi-Jet and Blade disks and the Filter tray are made of ABS flame retardant. The sensor windows are of PC and the front covers of different colors are made of ABS polymer. Also available in AISI 304 Stainless Steel satin finish external cover.

Internal parts are made of fire retardant plastic rated 5VA according to directive UL94.

VELTIA complies with the following directives: ROHS (Restriction of Hazardous Substances) and RAEE (Collection of electrical and electronic equipment and waste management).

All plastic pieces are properly prepared for recycling.

TECHNICAL SPECIFICATIONS

MODEL	TURBO
	MULTIJET
VOLTAGE: 220/230/240V	
Size	164,47*177,39*277,43*
Weight	3 kg
Frecuency	50/60Hz
Power Consumption	828W
Current (when running)	3,80Amps
Electrical Isolation	Class I
Air Speed (km/h)	452
Drying Time	8-10 sec
IP Code	IP22 C
Noise dB	68 dB
Number of Motors	1
Motors Speed	30.000rpm
Driving System	Soft Starting
Foot Detection System	Laser Sensor

CERTIFICATIONS

CE Conformity Certificate(*)
