- With comfortable carry handle.
- NO LAMPS, long-lasting plate system.
- High quality fan.

## TECHNICAL DATA

Electrical data: 12V DC with built-in transformer.  
Possibility of version connection to vehicle socket.

Power: 113W

Consumption: 3,5grs version: 1Amp

Flow: 95m<sup>3</sup>/h

Generation system: By ceramic plate

Ozone generating power: 3.5 gr / hour

Ozone generation: By ceramic plate proprietary technology

Hours fan life: 20.000.

Ceramic plate life hours: 10.000.

(In both cases according to the treated environment)

Dimensions: 250\*140\*95

# VELTIA

## WITH CONNECTOR TO A VEHICLE SOCKET

-According to Norms: UNE 400-201-94.

-For areas up to 50m<sup>2</sup>

	AREA UP TO 25M <sup>2</sup>	AREA UP TO 50M <sup>2</sup>	SMALL AREAS (VEHICLES)
Normal	10 min.	20 min.	10min.
Intense	20 min.	30 min.	10min.
